

The Commencement.

The Fourteenth annual commencement of the El Dorado High School at Ellet's opera house last evening, May 28th, had a full house though less crowded than heretofore. The stage was decorated with more than usual taste and beauty, the festooned class colors, white and gold being the chief feature. Upon a revolving disk and globe appeared the class motto "*Mens agitatur terram*" and below a single interpreting straight line "Mind moves the world." At the foot lights extending along the full front of the stage were potted plants in profusion.

Miss Rachel Adsit was the salutatorian, a graceful, easy, thoughtful speaker and one of the very best and brightest students the city schools have ever known.
