### CAPTAIN HALL.

A few words of sincere praise are certainly due to Captain A. M. Hall of the Forty-Eighth Separate Company.

From the moment the order was received from Governor Black summoning the National Guard to respond to the President's call until this, the last day at home, there has been in the affairs of the company nothing but smoothness and the best of good feeling. In no small part this happy result has been due to the energy, affability, organizing ability and patriotic self devotion of the Captain. His address to the company last Tuesday night, calling for volunteers, furnished the key note of the company's conduct ever since which has been harmonious, dignified and yet aglow with a lively patriotism.

Nor is it amiss to add that the Captain has had able assistance from Lieutenants Tift, Pattburg and O'Donnell as well as all the minor officers of the company.

Altogether, Oswego is proud of its company, both officers and men. To say that they carry away the best wishes of their fellow citizens is to state the case very mildly indeed.

The TIMES speaks for all Oswego when it gives to officers and men God-speed! In good and evil fortune, in victory or defeat, may they prosper as they deserve!

You're fighting for the cause you know is right.

We're with you—in spirit, in spirit, if not in the flesh

May 1st—Moving day with the Forty-Eighth Separate Company.

Good bye, boys!

Remember the Maine!

Like wise, remember Oswego!

Hit 'em once more, for the friends at home.

Oswego expects every man to do his duty.

Take pity on those poor girls at Hempstead.

Two weeks ago Saturday, thirty-six years ago, on April 16, 1861, John D. O'Brien started for Elmira with the first company raised in Oswego for service in the civil war. It became Co. A. Twenty-Fourth New York Infantry and covered itself with glory in the war.

## HAVANA TO BE SHELLED.

Report That Fleet Will Reopen Hostilities on Cuban Coast Tuesday

ATLANTA, Ga., May 1.—The Journal's correspondent with the fleet telegraphs that an officer of the Puritan says Matanzas is to be attacked again on Tuesday and a Red Cross steamer with provisions landed immediately thereafter.

It is also stated from another source that Havana will be shelled at the same time.

### Getting Ready for Victory.

MADRID, May 1.—An unusual demonstration partly in hope of a Spanish victory over the fleet of Commodore Dewey, is being organized for to-morrow.

## VICTORY!

Reported Triumph of Dewey's Fleet at Manila.

LONDON, May 1.—The Exchange Telegraph Company publishes a dispatch from Washington saying it is rumored Commodore Dewey has defeated the Spanish fleet at Manila.

### The News From Madrid.

MADRID, May 1.—2 P. M.—A dispatch from Manila says the United States fleet has arrived in sight of Subic, Philippine Islands.

## TERROR IN MANILA.

Residents Burying Their Valuables to Escape Violence When Our Fleet Appears.

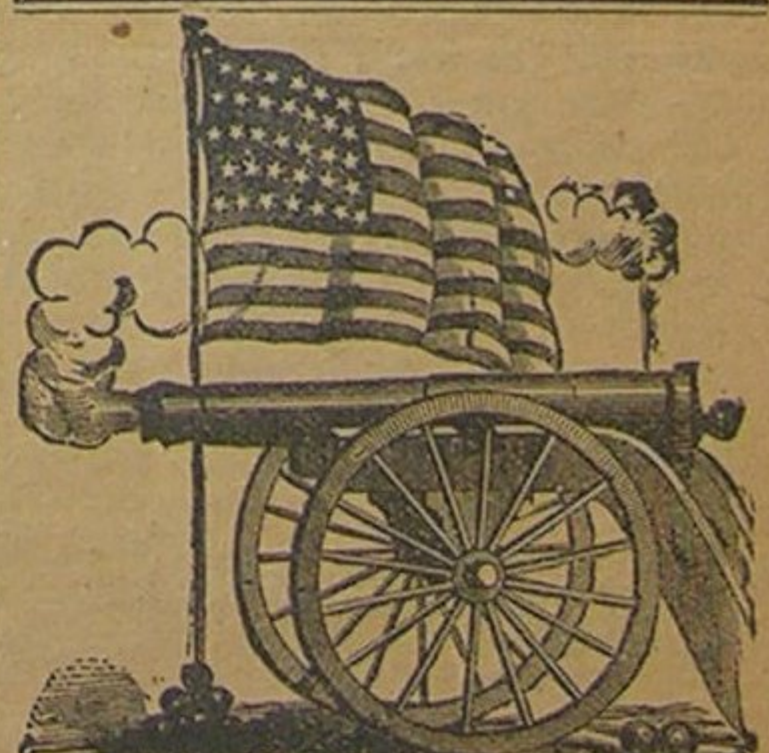

SHANGHAI, May 1.—Famine prices for food are said to prevail at Manila and, it is claimed, the Spanish authorities are maintaining order with difficulty.

People are burying their valuables to prevent their seizure by the insurgents or the Americans.

The military authorities are endeavoring to put a bold front on the situation; but the Manila correspondent of the Shanghai Gazette asserts it is considered certain that the insurgents will sack the city when the United States fleet appears, not discriminating between Spaniards and other foreigners.

The despatches of the Gazette allege that the Spaniards at Manila are almost unprepared to withstand an attack by the United States fleet, claiming that no defenses, in addition to the recently laid harbor mines exist, except obsolete artillery.

The natives, it appears, are gathering on the Bulacan coast expecting the arrival of the insurgent leaders who are expected, with American arms and supplies. When these are distributed, it seems, Manila will be attacked on the land side.

OSWEGO, SUNDAY, MAY 1, 1898.

**Company Notes.**

Here's, that you may have health, luck and happiness.

Almost every man in the company has provided himself with a pipe and tobacco.

Several young men applied for enlistment to-day. They were not accommodated.

Thomas Somers was detailed as artificer, or handy man. No wagoner was named.

A heart-sick maiden will witness the departure of the boys in blue to-night.

Every member of the 48th Separate Company is ordered to report to the Armory at five o'clock sharp.

Chief Blackburn will have a full head of steam on the steamers and the whistles have been pitched to a high key.

The Woman's Relief Corps of the G. A. R. Post sent to the Armory this morning eighty-four red flannel bandages.

Many citizens called to say farewell to the officers and men, well knowing there would be little chance of doing so at the train.

Nearly every member of the command is in receipt of one or more tokens of remembrance from friends. Watch the 48th.

Nearly every member of the command attended divine worship this morning. A fitting thing upon the eve of departure.

The soldier boys passed the afternoon bidding adieu to friends and in many instances the partings were extremely touching.

The glorious stars and stripes are floating to-day from every flagstaff in the business portions of the town as well as in the residential parts.

It is estimated that fully two thousand persons will take part in the parade while five times that number will applaud the "volunteers" to the echo.

All the craft in the river are flying "Old Glory." The Katie Grey was anchored in the river and displayed the flags of all nations presenting a pretty appearance.

The Armory was a busy place to-day. The officers employed a large part of their time in packing their field trunks and looking after the company baggage and ammunition.

Private Thomas Gill, a call man in the fire department, is made happy upon his departure for the front. It is generally understood that his salary of \$100 a year as call man will be allowed him by the department of Fire and Police during his absence.

Read the story of the capture of the big Spanish cruiser Panama by the little tug Mangrove and you will realize what kind of poltroons you have to fight. With odds of almost ten to one in their own favor the Spanish surrendered without a blow and fell on their knees, weeping and begging that their lives be spared. The boys on the Mangrove had all they could do to keep from laughing in the faces of their captives.

**THE LINE OF MARCH.**

upstairs to the parlors where behind closed doors the Articles of War were read to them.

The company re-formed on the floor in two platoons and were photographed by Frank L. Brown and Nelson Morrow. Pictures of the officers in a group were then taken.

Minor orders as to formation, etc., were issued by First Sergeant McDonald, and the men were dismissed until five o'clock.

**The Complete Roster.**

Eighty-one men and three officers form the company. A complete roster follows:

Captain, A. M. HALL.  
 First Lieutenant, D. H. TIFFT.

Reid, Burton L. Rider, Elac Rickey, But Simmons, William Taylor, Jesse D. Taylor, Walter Vickery, Thomas Vickery, Robert Walsh, John C. Henry, John E. Imlay, William Imlay, William Kinney, Louis King, Joseph La Porte, Frederick La Porte, William Murtha, Edward Murphy, William McCann, H. P. Marshall, George Neil Wheeler, Frank J. Yeager, Thomas D. Gill and Edward Slurff.

By Special Train.

The Company will leave the R. W. & O. depot, West Side, promptly at 7:30 o'clock, by special train. Three coaches and one baggage car will be necessary to convey men and equipment. At Syracuse a short stop will be made when the local command will be joined by the Forty-first Separate Company of Syracuse, the First and Eighth of Rochester, and the Thirty-Fourth of Geneva, and the journey will be continued over the New York Central railroad. Barring unforeseen delays the Company will report at the camp at Hempstead, L. I., by eleven o'clock forenoon to-morrow.

**Uniforms and Equipage.**

Each member of the company leaving the Armory will be supplied with the regulation uniform and equipment for enlisted men. It will consist of a campaign hat and cap, blue blouse and trousers, knapsack, haversack, canteen and forty rounds of ammunition. Each knapsack will be supplied with two suits of underwear, two pairs of socks, extra pair shoes, soap, towels and other toilet supplies. On top of the pack will be strapped a rubber pouch and overcoat. Five days' rations is ordered for the trip, one of which will be carried in the haversacks. The company will also take all camp equipage furnished by the State including tents, axes, lanterns, buzzsaw, ovens and cooking utensils.

**THE CUBAN FLAG.**

The flag adopted by the Cuban insurgents and which will be the flag of Cuba should the island secure its independence consists of five stripes, three blue and two white, with a triangular field of red in which is set a single white star.

**Stamp Their Approval.**

The announcement that General E. H. Hoffman had been chosen commanding officer of the provisional regiment of which the Forty-Eighth Separate Company will be a part, and the selection of General W. M. Kirby as Lieutenant Colonel of the same regiment, was received with pleasure by the officers and men of this command. Both are well known in local military circles having visited this city on many occasions and the general impression is that the selections could not have been improved upon.

Have the TIMES sent to you in camp and keep posted on affairs in good old Oswego!

**Organizations, Attention!**

Organizations intending to take part in the parade are requested to follow out the formation of divisions compiled by the Grand Marshal.

First Division—Will form at the corner of East First and Mohawk Streets, right resting on Mohawk Street.

Second Division—Will form on the East side of East First Street, South of Mohawk, right resting on Mohawk.

Third Division—Will form in East First Street, right resting on Mohawk Street.

Fourth Division—At the Armory. The members of every organization are requested to meet at their rooms at 6 o'clock sharp, when their positions will be assigned.

**CYCLONE IN IOWA.**

Several Towns Wrecked in O'Brien County—Reported Loss of Life.

MASON CITY, Ia., May 1.—A devastating cyclone swept over Northwest Iowa last night.

The worst destruction is reported near Archer in O'Brien County. Primghar, Hartley and Curlew, it is stated, are badly wrecked. Hartley is said to be almost entirely destroyed. The wires are down and only meagre particulars are obtainable. Several are reported killed.

**Crowds at the Armory.**

All day long crowds of curiously inclined persons blocked the entrance to the Armory in a vain endeavor to catch sight of the preparations under way for departure.

Sentries were on guard from early morning until the hour of departure and no one was allowed inside the big building but members of the command. The guns and equipage are all in place on the Armory floor ready for the time when the men will again fall in line.

THE FATE OF SPAIN.

EAGLE: "GUESS I'LL TAKE HIM OUT OF CUBA AND DROP HIM." —New York World.

FR. BARRY'S FAREWELL.

Assures the Boys Theirs is a Righteous Cause and Their Country is Loyal to Them.

Will the C. M. B. A. and other organizations of the parish meet in Priory Hall at 2:30 this afternoon, to prepare to take part in a demonstration in favor of the Forty-Eighth as it is about to leave this evening for the war? We should try to show them what is now thought of them and what is expected of them. It is no small thing for those poor fellows to tear asunder the ties that bind them to home and risk the dangers of a deadly climate and the determined resistance of a Spanish soldiery; yet it is nothing as compared with the dangers of '61, '62 and '65, especially since our country is now experienced and that she has both the means and disposition to take good care of her soldiers.

This war is a deplorable thing; but we are not at fault. Had Spain given to poor Cuba the treatment meted out even to poor slaves, instead of indescribable, barbarous and bloody cruelty; had she listened to the friendly voice of reason, had she listened to the kindly suggestion of our Venerable Holy Father there would be no need of war; but, guided by infidel statesmen and as though blind to her coming destruction, she has forced our country to interpose her shield of charity between her and the poor Cubans.

In view of this our soldier citizens should be encouraged by every means in our power and they should feel as they are about to leave that their mes and their country will be loyal to them.

Have the TIMES sent to you in camp and keep posted on affairs in good old Oswego!

What One Manufacturer Did.

A well known manufacturer employing about eight guardsmen is reported to have announced that the married men who work for him and are members of the Forty-Eighth need not expect that their positions would be held open for them. The single men, whom he thought ought to go to the front, would find employment with him on their return, but none would be paid during their absence.

REV. J. CALVIN MEAD.

Gives Godspeed and a Blessing to the Boys in a Letter.

The following letter was received by Captain Hall this morning:

CAPT. HALL AND THE FORTY-EIGHTH: My dear and honored brothers: As you respond to the call of your country permit me to give you a most sincere Godspeed!

Yours is a brave response. You go out in the interest of humanity to proclaim liberty to the down-trodden; no grander cause for war ever stirred the soldier's heart.

I am glad our citizens are arranging to give you so noble an escort as you start for your great work. It will be a Sabbath well spent, bestowing honor to whom honor is due.

May the God of love be with you, and keep your souls from evil, save you from every enemy and give you victory.

I assure you that in the church of which I have the honor to be pastor, continual remembrance and prayer shall be made for you and yours.

Very sincerely,

J. CALVIN MEAD.

THE NEW FORTY-EIGHTH.

Lieutenant O'Donnell Will Have Charge of a New Company to be Immediately Formed

Captain A. M. Hall received a dispatch from Adjutant General E. S. Warren of Buffalo last night asking him to immediately recommend a person to secure recruits and organize a company to succeed the Forty-Eighth. The name of Second Lieut. Michael O'Donnell was transmitted to the Adjutant General and he will probably receive a notification of his appointment within a day or two. The members of the Forty-Eighth who remain at home will form the nucleus of a new company which will be recruited to one hundred and seven men. Should a second call be issued the new command will be ordered to the front. They will be known as the Forty-Eighth Separate Company.

Last Night's Meeting.

Mayor John D. Higgins presided at an enthusiastic meeting of representatives of the different organizations held last night. C. J. Vowinkel was chosen grand marshal of the escort by acclamation with power to select his aids. Before adjourning every detail was completed.

SAMPLE SPANISH BRAVERY.

Read the Story of the Panama and See the Sort of Men You Have to Fight

Copyrighted 1898 by the Associated Press.

KEY WEST, Fla., May 1.—The capture of the Spanish steamer Panama by the little gunboat Mangrove was an act of sublime impudence.

It was like a schoolboy with a potato gun demanding the surrender of a Sioux Chief armed with a repeating Winchester.

The Panama is probably by all odds the most valuable prize so far captured. She is valued at \$700,000, and would have been of inestimable value to the Spanish forces had she escaped the vigilance of our gun boats for one hour's run and reached Havana. She is a 6,000 ton craft and has two fourteen pound rapid firing guns and ought to have been able to take care of herself yet, without a show of resistance she meekly surrendered to the Mangrove, which is little more than a harbor tug and has only two six pounder guns.

When the big Spanish steamer was brought into Key West to-day by the little boat it was a sight to provoke cheers of derision from the hundreds of Americans and Cubans who swarmed the water front. The great Spaniard towered high above her little captor reminded one of a huge black mastiff side by side with a puny sky terrier. She had a crew of about seventy-six. A member of the Mangrove's crew says that it was with considerable difficulty that they prevented several of the Spaniards from jumping overboard after the marines boarded her. This has been the case with nearly all the Spanish vessels captured. When the Spaniards find they are caught they fall upon their knees and pray for their lives. That is all they ask at the hands of their captors—that their lives will be spared. They seem to expect that they are to be butchered the moment they reach land.

Nominated for Surgeon.

A dispatch was received last night by Dr. W. J. Bulger from Gen. E. H. Hoffman, commanding officer of the provisional regiment, saying that Dr. Bulger's name had been forwarded to Governor Black as a candidate for surgeon of the regiment with rank of Major.

PANIC IN THEATRE.

Fire Causes stampede of fashionable Audience at Opera in San Francisco.

SAN FRANCISCO, May 1.—Panic was caused by fire in the California theatre last night while Melba was singing in opera.

There was a rush to the doors, but miraculously, nobody was killed, though many of the fashionable women present lost jewels and articles of dress.

Melba fainted and was carried off the stage.

WASHINGTON, May 1.—No word has been received from Manila. Secretary Long arrived at the White House shortly before 11 this morning to take the President to church.

As the President came from the White House to take the carriage he saluted the small party in waiting outside. His face wore a rather serious look. He accompanied Mr. Long to the latter's church, the Universalist.

Acting Secretary Moore and Assistant Secretary Adee were together for some time at the State department. An official notification of neutrality had been received from Siam.

**BASE BALL YESTERDAY.**

**The Oswego Team Defeated the St. John's Military Team Twelve to Three.**

A base ball team from St. John's Military Academy came to town yesterday and played an exhibition game with the Oswego's at the Fair Grounds.

They were taken into camp to the tune of twelve to three. The game was replete with brilliant plays, the home team showing up one hundred per cent. better than in the game with the Knights of Columbus. Allen pitched a superb game, not a hit being made off his delivery. Ansel pitched the first five innings and proved effects. Burrett played a crack game.

**Remember the Game.**

A benefit game of base ball to further enrich the treasury of the Oswego Base Ball Club will be played to-morrow night at the Armory. Three games of five innings each will be played.

NEW YORK, May 1.—The United States cruiser Topeka, (formerly the Diogenes), commanded by Lieutenant J. J. Knapp, which sailed from Falmouth, England, April 19, arrived safely in port this morning after a rough passage of twelve days, and anchored off Tompkinsville.

The Topeka behaved well at sea and sustained but trifling damage. Lieutenant Knapp when asked whether he had sighted any war ships during the voyage, replied that he had not been anxious to meet any, owing to his small crew and the fact that the Topeka's guns were not mounted.

**Elks Attention.**

Every member of the Lodge of Elks is requested to assemble at Elks' Hall, at 6 P. M. sharp. They will be met at the rooms by Kingsford's Band.

**FEAR A MASSACRE.**

**Spanish Have Worked Up Natives at Manila to Murderous Frenzy Against Foreigners.**

MANILA, May 1.—The Insurgents occupy the hills around the city awaiting the American fleet, which is expected every minute. It is planned to attack the city simultaneously by land and sea.

The Spanish fleet is supposed to be in hiding watching the entrance of the harbor for the arrival of the Americans. The Spanish admiral has cabled to Madrid that his fleet occupies a good position and will be able to resist the Americans when they arrive.

Grave fears are felt that a massacre of all foreigners in Manila may take place as the Spaniards have worked upon the feelings of the natives with that end in view. The British Consul has cabled to Hong Kong for a man-of-war to protect British interests.

An idea of the tactics adopted by the Spanish authorities to keep up the courage of the fighting forces of Spain can be gathered from the fact that they have issued a placard stating that a Spanish cruiser, on Monday last, engaged and sank two American war ships.

It is asserted that the Spanish cruiser Castilla of 3,342 tons displacement, recently grounded near the entrance of Manila Bay, and was afterwards scuttled by the Spaniards in shallow water.

**MADRID'S FESTIVAL.**

**Preparing to Celebrate To-morrow a Triple "Victory" Including that of To-morrow.**

MADRID, May 1.—(Noon)—All is quiet here, but the festival being organized for to-morrow promises to be an unusual demonstration, being the anniversary of the birth of the liberation of Spain from France and of the naval "Victory" of Spain at Callao, Peru, in 1866. Interest in the event is heightened by the hope of the Spaniards that the Spanish fleet will be victorious over the United States fleet commanded by Commodore Dewey, thus giving them a triple celebration.

W. Bennet, in the Second volunteer regiment of the Third Brigade. General Tillinghast would give no reason for the change except to say that it was not prompted by any unwillingness of the Sixteenth Separate Company to go to the front.

**Official Order to Captain Hall.**

Captain A. M. Hall received a positive order from Adjutant General C. Whitney Tillinghast, 2d, last night, giving the hour of departure and other important information. It follows:
