#### Grain Rate From Chicago to Buffalo Advanced.

## The Schooner Amozon Chartered

For a Record Breaking Cargo Steamer Gratwick Not at Fault Lake Superior has put an embargo on commerce here. No boats will clear until it subsides, and several lumber tows are waiting for fair weather.

Lake Superior has put an embargo on commerce here. No boats will clear until it subsides, and several lumber tows are waiting for fair weather.

Tollisoo, June John Mitchell, Algonac. Timber—Melbourne, Garden Island. Light—Porter, Maxwell, Brainard, Cheboygan. Thip Builder Wheeler Settled.

The lake freight market is very dull. Big coal cargoes are scarce and boats are being delayed at the docks. Shippers from Cleveland and points east of here are going slow and will not want much tonnage until some definite action is taken by the miners in the Pittsburg district in regard to a was legal and just. strike. A meeting was held at Pittsburg yesterday and the men appear to be divided on the question. Ore shippers are pretty well filled up and are not taking much outside tonnage. Rates hold steady all around. The schooner John Schuette men. loads here for Portage at 25 cents.

far exceed what was predicted at the opening of the month. The receipts amounted. to 3,828,712 bushels and the shipments to 6,268,731 bushels as compared with 4,048,-842 bushels received and 7,955,277 bushels shipped for the corresponding month last grain cargo, and went to the Sturgis elevear. The receipts were almost as large vator, drawing 16 feet 2 inches forward and the shipments are not so far behind and 16 feet 6 inches aft. last year's record for May, when the Deek Hand amount of wheat sent forward was considered phenomenal.

Total receipts of all kinds of grain during May were as follows: Wheat, 3,828,712 bushels; oats, 1,131,043 bushels; corn, 1,239 bushels; barley, 318,953 bushels; rye, 157,-187 bushels; flax, 451,669 bushels. Shipped: Wheat, 6,268,731 bushels; corn, 43,969 bushels; oats, 2,288,490 bushels; barley, 590,441 ushels; rye, 400,047 bushels; flax, 1,150,430 bushels.

Grain in store: Wheat, 3,045,200 bushels; barley, 263,668 bushels; flax, 1,488,642 bush-

els; corn, 8,932 bushels; oats, 602,699 bushels; rye, 348,383 bushels.

At Chicago the Buffalo corn rate was forced up to 11-4 cents this afternoon, the Inter Ocean being placed at that figure. The barge Amazon, which is yet on the ways at the shipyard at South Chicago, was placed for a cargo of 225,000 bushels of corn to Buffalo, which is 18,000 bushels larger than the Queen City's record. The barge will probably be launched Saturday and will be all ready for sea.—Charters: To Buffalo—Inter Ocean, Amazon, corn; America, oats. To Midland—Sachem, corn. To Port Huron-Narragansett, corn; Howland, oats.

BUFFALO, June 2.—Chartered: Coal—Alva, soft; Cranage, Madden, hard, Duluth, 20 cents. TOLEDO, June 2 .- Chartered: Wheat-

Arthur, Buffalo, 1 cent. Collision Case Settled.

in important decision in a collision case which is of much interest locally was ren-dered by Judge Grosseup at Chicago Tuesday. The schooner Sunrise was sunk in a fog on Lake Michigan May 21, 1896, by the wholeback barge No. 133 in tow of the steamer W. H. Gratwick. The Gratwick and the barge together were libeled for should. The case was tried in the north-shoals. This request has been published in the lake newspapers in the form of news cup held the Gratwick not at fault and condemned the Sunrise for not changing.

But wheever knew a vessel master of plants of this request of this request of the papers. condemned the Sunrise for not changing her course and the whaleback for not sounding her bell or for not having a proper one. Harvey D. Goulder represented the steamer Gratwick, which is no heed to it. Only stringent rules, ensented the steamer Gratwick, which is awned by Capt. John Mitchell and others. owned by Capt. John Mitchell and others. forced by the presence of a government H. A. Kelley looked after the interests of patrol officer, backed up by a good penalty, the American Steel Barge Co. and C. E. as is the case in the St. Clair canal, will the American Steel Barge Co. and C. E. Kremer of Chicago was the attorney for the owners of the lost schooner.

Machinery Badly Wrecked. Robert Logan of this city and Frank Kirby of Derroit held a survey on the steamer State of Ohio yesterday. The huil is not damaged any, but the engine is almost a complete wreck and will have to be replaced by a new one. The wheels and shaft are about the only parts of the machinery that are not damaged. It will take about four or five weeks to put the steamer in shape for business again. The work will be rushed as rapidly as possible, as the boat is badly needed. The State of New York will take the Ohio's place on the Buffalo route.

Eleven Damaged Plates.

The schooner Constitution is in the Ship Owners' drydock. She struck at Sailor's Encampment coming down and eleven plates had to be taken off. It is expected that the repairs will be completed Saturday. The work is being done by the Cleveland Ship Building Co. Suit Against Wheeler Settled.

The suit which was begun in the court of common pleas in this city by the Brown Hoisting & Conveying Machine Co. against F. W. Wheeler & Co., ship builders, West Bay City, Mich., asking for \$15, 000 alleged to be due on three promissory notes of \$5,000 each, attachments for money in the hands of the Etna Steamship Co. in the hands of the Etna Steam-ship Co., Bessemer Steamship Co. and Pickands, Mather & Co., having been issued, was dismissed yesterday, the matter at difference being immediately adjusted upon a meeting of the parties concerned. A Novel Point.

A perusal of the libel papers in the case of the steamer Florida vs. the steamer Roby will show that a novel claim has been made by the attorneys for the Florida. The schooner W. D. Becker, which was in tow of the Roby at the time she sank the Florida, is named as also fault. The Detroit Free Press says: course it vill be seen that this is done in order, if possible, to utilize the value of the schooner in part payment of the damages sustained by the Florida and her cargo, if it can be proved that the Florida was in no way to blame for the col-

The Becker was strung out behind the Roby perhaps 900 feet, on a towline. It was her duty to ring four bells once every minute, in much the manner of a vessel of war. The pilot rules of the lakes make this bell ringing compulsory. It shows all other vessels in the vicinity that a tow is near by, gives them an idea of her rate of speed, and warns them that after they have passed the towing steamer going in an opposite direction, they still have the consort or consorts to keep away

The Florida makes the claim that the bell on the Becker was not rung at all: that had it been done, the master and lookouts of the former might have had botter guidance and perhaps might have enabled to dodge the Roby, in spitnegligence of the latter. If it is that this contention holds good, t. Booker will also be appraised, and Florida wins the schooner will he to go with her steamer to satisfy the airs

for damages. The Roby was built in 1889, is in good condition, and last year was valued at \$95,000 for insurance purposes. It is the opinion here that such is the depreciation wrought by the times in vessel property, the will be appraised for \$60,000 or less. This alone would go but a little way to eatisfy the claim for \$172,000 made for the florida, as nothing but the value of the offending vessel can be seized and utilized. The schooner Becker came out in

1893; and last year was valued at \$58,000; Schr Senator, Tawas, coal. she would probably be appraised at \$35, Schr George Hartnell, Duluth, light. 900 or less. This sum is not to be sneezed at, if it can be obtained.

Gale on Lake Superior. Special to the Plain Dealer. BAYFIELD, June 2 .- The severe northeast gale today blew a raft containing 1,-500,000 feet of logs ashore at this point this afternoon. Three tugs were unable to

and alighting on his head. He died soon after being taken from the hold. He was from Ashtabula. Capt Wilde Will Remain.

the hatch last night, falling into the hold

WASHINGTON, June 2.—Secretary Long has made a decision of great interest to the lake carrying trade. Several days ago Capt. James W. Millen of Detroit, on behalf of the Lake Carriers' association, forwarded a petition to the secretary of the navy through Senator McMillan, asking that Commander Wilde, naval secretary of the lighthouse board, be retained in that position in view of his familiarity with navigation matters and his excellent record in

Today Senator McMillan received the following letter from Secretary Long: "I have the honor to acknowledge the receipt of your letter of the 27th inst., inclosing a communication from Capt. James W. Millen of Detroit, and requesting the retention of Commander George F. F. Wilde, U. S. N., as naval secretary of the lighthouse board, and to state that the department has decided that he shall remain in his present po-

Grosse Point Channel.

DETROIT, June 2 .- It is more than likely that congress will have to prescribe a set of regulations for the protection of the new Grosse Point deep channel. Secretary of War Alger sent instructions to Col. Lydecker to request masters and pilots to go slowly through it, in order that the sides might not be broken into the channel and the bottom so disturbed by the wheel currents as to form lumps and shoals. This request has been published

have the desired effect. This is called a twenty-foot channel, but at the present depth of water it is not. A little over nineteen feet is shown in it. Big steamers come down with record breaking cargoes of ore or wheat and drawing close to seventeen feet. If the current from their screws is not to disturb the bottom the screws must be revolved as slowly as is possible and at the same time allow them headway. Otherwise everything that is not well fastened shale is going to be thrown about into piles on the

It is known that certain steamers, before the "request" came, went dashing through the channel at but slightly reduced speed. The 800 feet of width and 19 feet of depth will allow many of them to do this without the fear of going aground, but the consemences are bad. It remains to be seen how the North West and the North Land, to be out in a few days, will act. They are deep of draft and powerful of screw, and they are after schedule time. Gen. Poe used to say that with ordinary precaution on the part of the vessels the channel would not be gouged out nor filled up, but he agreed that they would not employ precaution unless forced to do it.

Marine Notes. The propeller C. B. Lockwood, now at Sandusky, has gone out of commission,

pending a revival of trade. The steamer Stephenson, towing the big schooner Bell, took four cargoes of ore out of Duluth during the month of May. The steamer P. P. Pratt and consort Annie M. Ash made four round trips to Marquette last month. On one trip they took

Ore is now moving to the Duluth docks from the Mesaba range at the rate of 600 cars daily from five mines. The Oliver, 190 cars; the Mountain Iron, 200 cars; the Ohio, 50 cars; the Eliwabik, 75 cars, and the Commodore, 15 cars.

coal.

Thomas Morse of Chicago, nineteen years old, and employed as a greaser on the ma-chinery of the steamer Thomas Maytham, had his foot caught in the cog wheels Tuesday morning while the boat was a few miles above Detroit. A stop was made at the dock and the boy was taken to the Emergency hospital, from which he was transferred to the Marine hospital later. The foot was rather badly crushed.

SENT TO THE WORKS. William Bart Pleads Guilty to the Charge of Petit Larceny.

William Bart, charged with petit lar ceny, pleaded guilty in police court yester-day and was fined \$25 and costs. Bart day and was fined \$25 and costs. Bart gave evidence of his weak condition by his emaciated appearance, resulting from his attempt at suicide at the central police station immediately after his arrest several weeks ago. Since then Bart has been at the Huron Street hospital.

Dr. Kaestlin of the Deaconess hospital, who was the prosecuting witness asked the judge to be lealent with the prisoner, as he believed his queer actions were due more to the influence of morphine, of which drug Bart is a habitual user, than criminal intent.

Bart told the judge that he was a graduate of the Heddelberg university in Germany, but dissipation had been the cause of his downfall. Bart is the man who telephoned Miss Minnie Guenther, with whom he had been keeping company for some time, telling her that he had committed suicide and had left her a \$5,000 insurance policy. He was taken to the workhouse yesterday afternoon.

DROWNED IN A TUB OF WATER.

AKRON, June 2.—E. Donahue & Son, jobbers in tobacco, sporting goods and sundries, assigned today to W. T. Vaughan. The assets and liabilities are about equal at \$11,000. Slow collections The child had been playing in the kitchen of her home while the mother busied herself about the household work. The baby was caused the failure. CASTORIA

just able to walk and, unseen by the mother, went into the yard and made its way to the rear of the house, where an tub, half filled with water stood, placed there to catch the rain water from the roof. It was fully twenty minutes before the mother missed her baby and a hurs ed, investigation revealed its lifeless body in the tub of water. It had fallen in head first and was unable to get up, no doubt on account of the fright occasioned by the fall. Dr. F. B. Herbhersman was, summoned and he arrived as soon as possible, but all efforts of resuscitation were unavailing. The child's parents are Polish people, the father being employed as laborer. just able to walk and, unseen by the mother,

# STATE OF WAR.

CONTINUED FROM FIRST PAGE.

very likely that Garfield and Alexander will be the successful candidates, although the outlook last evening prophesied that a strong fight would take place.

This is the first place, aside from Cleve land, where the Foraker people have shown their hand, and politicians who are watching things declare it will not be the last. Indeed, the fight brought by McKisson, the significant conferences between Foraker and Kurtz, and other events of a like nature, have fully aroused them to the dan-ger the future has in store for them. Men who have all along insisted that there was peace are admitting now that a state of war exists. One prominent politician yesterday said he knew that the fight was being made through the entire state and that if the Foraker people had a majority of one in the state convention they would hold up the indorsement of Senator Hanna

for re-election.
"They are after spoils," said he. "They want the whole thing, and if they fail to get it in the convention they will try to secure it in the legislature. If the Foraker people control the state legislature they will never support Mr. Hanna. You mark it, there is a fight on, and a big one.

\* \* \* \* \* The dilemma in which the Hanna peo-ple found themselves regarding the arranging of a slate for the legislative nomina tions in the county has been partially straightened out. Realizing that they could ill afford to split their organization by of-fending the followings of those men left off the slate, they have been exerting every effort to sound the objectionable candidates, appealing to their loyalty to withdraw. So marked has been the success of the move that yesterday it was stated positively that the slate was in the course o preparation and would be completed and announced within the week.

"We dislike this method very much," said the gentleman who made the announcement, "but it has been forced upon us by the fact that McKisson has arranged a slate. We must meet the direct issue with a united organization.".

The committee of fifteen will meet this afternoon at 1:30 o'clock, and some interesting surprises may be expected from its

SUSPENDERS CAUSE TROUBLE.

Because of Them the Amish Church Near Winesburg is in the Throes of a Revolution.

Special to the Plain Dealer. WINESBURG, June 2:-A great uproar is at present prevailing among the Amish in the vicinity of Walnut Creek and Charm, this county, which will probably lead to a revolution among that peculiar sect. Their dress and habits are noted for their peculiarities. It has lately come to light that some of the unmarried young men are wearing suspenders, a thing which their doctrines especially disapprove and which, besides being unnecessary, has a tendency to contaminate their old Amisl

The matter was brought before the church last Sunday, and the actions of these young men taken into close consideration by the elders. It is believed that many will leave the church.
