

WEATHER BOGY PROPS UP WHEAT

Prices Continue to Jump Wind Up Strong at Top of Leap.

BRISK BUYING ABROAD

Poor Argentine Wheat Falls Attract Europe—Corn and Oats Also Firm.

CHICAGO, April 5.—(Special) crop-scarce wheat prices for lumped again, closing strong at top. The outlook also was for good-sized increases of the United States wheat supply.

Notwithstanding downturns in quotations at Chicago, the market closed buoyant, 1 1/2 to 2 1/2 cents higher than a week ago.

Brisk general buying on the part of some foreign buyers, and the rise from the start, and as day drew to an end broadened to the largest volume of wheat witnessed in some time.

It was generally believed that action on forecasts of showers in some districts would lead to a reversal of the late decline.

Although the weather forecast in general regarded as strictly a weather forecast, it attracted considerable attention to reports of a heavy rain in Argentina.

Corn and oats derived their firmness from reports of a heavy rain in the wheat market.
