## To the Teachers

¶ The purpose of the lessons here published is to enable the child to handle his Bible intelligently. To give him the beginning of a religious education so he may be able to find readily the books, chapters or any passage he may desire.

¶ To have such conception of the love of God and of Jesus Christ as may lead him to make a personal choice of a life of Christian service.

¶ It is not the aim to see how much but how well each lesson may be learned.

¶ To encourage Bible study by the Juniors, the bringing of their own Bibles, the marking of them and also the committing of references as well as the passage.

¶ With an earnest prayer that through these lessons many may be lead to know Christ and to love his Word. this book is lovingly dedicated to the Junior Department, Richmond Avenue Methodist Episcopal Sund School.
